

if you like it: +1 if not -1

Shortly this is an invitation for anyone - The peaceful revolution in berlin has begun: <http://occupy-berlin.wikidot.com/>. The idea is to challenge anyone of the 99% to participate in the writing of our manifest, so that by the tool of assemblies we would slowly create a manifest fitting to the 99. This may take long time, but will make the 99% more active in determining their future. We are going to make in-room assemblies which are streamed and beamed out in the street for becoming public assemblies. We are going to have one general assembly in berlin and many other local assemblies, each may have working groups per issues to be solved for the interest of assembly, where some assemblies may also be specific per subject and so that per each decision a time stamp for its validation will be attached, so that the absent in the assembly could still reflect on the decision.

We are the 99% of the population versus its 1%, but we want become 100 % , but suddenly where the 1% together control most of the resources which we could use. In the 1% we can find the bankers, the politicians and the owners of medias and huge properties. They **talk in secret to exploit** us (but also themselves) and we **talk publicly** and in assemblies, because we find the assemblies a useful tool for reaching consensus and because we learn that the 1% will always try to split us - the 99%. Come to the Assembly or watch over stream ! Y+1

Any law, such as those based on "war on terror", shall never be consider legitimized, when acting against democratic citizens, where democratic citizens shall always have at least these 3 freedoms:

freedom of speech (in)
freedom of association (for those having)
freedom to move

1. everybody is an individuum !+1
2. Respect everybody+2
3. We are one family+
4. No Leadership nowhere+0
5. No borders+2
6. global environment problems we fix together+2
7. Local things you organize in your street+1
8. no stocktrading or gambling on water, food, basic supply and living space!
add it ! +10
9. we demand bicycles for everyone , free s/u-bahn and no car one day per week -2
10. we need an instrument to provide that at any time anyone can vote for or against suggestion of any one
11. Rather than a senate composed entirely of an elite who care only about promoting their own vested interests, any senate should be composed of persons from across the entire socioeconomic spectrum of society - reflecting the diversity of gender, race/ethnicity, social class and other differentiations of privilege living under the rule of the state.
12. Es wird viel in der occupy bewegung ueber Liebe gesprochen. Ich denke ein Grundsatz der Liebe sollte es sein dafuer einzutreten, dass alle Menschen auf dieser Welt genug zu essen bekommen sollten. Statistisch koennen wir - meines Wissens - die Weltbevoelkerung m? tlerwe?le 3,5 mal ernaehren. Bevor wir das Kap?tal umverte?len - sollten w?r essen auste? len. Ich trete dafuer e?n - dass d?es e?n Grundsatz der Bewegung werden sollte. Vor allen anderen Z?elen. Gebt den Menschen zu essen! Jetzt... Schon alle?n dafuer lohnt es s?ch zu kaempfen.+2
13. We demand that the money and credit system will be transformed to that of self expired date, (similar to regionalgeld) such that the 3 values are displayed in the bill and so that: "geld mit verfallsdatum" ist unsinn !!!!!

A) Self expired money is that of which value (such as 10 euros) is attached with the pair of dates - its issue date (such as 1/11/2011) and its expiration date (1/11/2111),,

B) Self expired credit is that of which value (such as 10 euros) is attached with the pair of dates - its issue date (such as 1/11/2011) and its expiration date (1/11/2111) which might be latter than the expiration date of the money being loaned. +1

in this way money and credits become more liquid, since the banks , after borrowing in low interest from a central bank, must keep low interest in distributing such loans, for not loosing the value of the held many or the credit as it always in reaching its expiration date .

14. We demand comcomized units of which $t \leq 1m$, $d \geq 0.5$ and $c \geq 150$ for human or $c \geq 10$ for comcom to become tax free and all institutes being bailout to be govcomcomized. That includes, among other, also all german banks benefiting from ECB's bailout to become govcomcomized of which peer owners are all the german tax payers. See <http://iswith.wikidot.com/> for what is comcomized unit and see <http://iswith.wikidot.com/govcomcom> for what is govcomcom.

15. We demand political representatives to act only in assemblies of which maximum number of members is 150, where the representation is of some layers and the represented is either a person or (interest of other) assembly and as each member may swap between assemblies within the bigger unit.

16. Versuch eines konsensualen Manifests: <http://www.alex11.org/2011/10/entwurf-eines-konsensualen-manifestes/> mit sehr umfangreiche Debatte darunter. Es müsste nun das besprochene in einem neuen Artikel nochmal zusammen gefasst werden.

17. No more direct taxation, but instead regulation across states for taxation on offshore and importing companies.

....no war ! no money is the finish!+1

<http://occupygermany.net> if you been there before !

the girht to listen not only speach by the gound gezts <http://willyou.typewith.me/p/Zusammenk%C3%BCnfte-Er%C3%B6rterung>.

all pads <http://occupyberlin.info/blog/index.php/pads-zum-mitmachen/#comment-76>

leute das ist kein "manifest", das ist zusammenfassbar als "grundregeln des zusammenlebens von menschen" .. #facepalm deluxe#
